REPORT TO COUNCIL

SUBJECT

Action on an Agreement with Kyle Groundwater, Inc. for Well Condition Assessment and Engineering Services During Rehabilitation

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

The Water and Sewer Utilities Department (Department) is responsible for providing dependable supply of safe, potable water for the residents and businesses in Santa Clara. Today, the City's water supply comes from 20 active groundwater wells and water purchased from the Santa Clara Valley Water District (Valley Water) and the San Francisco Public Utilities Commission (SFPUC).

Due to the current drought, wholesale water supplies from the Valley Water and SFPUC have been significantly reduced as water has become scarce throughout the region. In addition, the City has lost a number of wells from decommissioning of aging wells. To offset the shortfall, the Department is considering rehabilitating six of the 10 inactive wells.

The six inactive wells identified for potential reactivation are Well 5-02, 16-02, 21, 26, 32, and 34. To reactivate these wells, the Department requires the services of a consultant to perform well assessments, provide technical recommendations, develop technical specifications for rehabilitation, assist staff with bid advertisement, contractor selection, and provide engineering support services during rehabilitation.

DISCUSSION

Pursuant to City Code Section 2.105.330 and State laws governing procurement of architectural and engineering services, the City followed a qualifications-based selection process whereby proposers are evaluated and the most qualified is selected, subject to negotiation of fair and reasonable compensation.

On March 3, 2022, the City published a Request for Proposal (RFP) for well condition assessment and engineering services during rehabilitation. Three proposals were received from the following firms:

- Bonkowski & Associates
- KYLE Groundwater, Inc. (KYLE)
- Luhdorff & Scalmanini Consulting Engineers (LSCE)

The proposals were independently evaluated by a three-member evaluation team. KYLE and LSCE

were invited to participate in oral interviews to introduce their proposed project team members and demonstrate their experience and capacity to meet the City's requirements. After concluding the evaluation process, the evaluation team ranked KYLE as the most qualified consultant.

The term of the proposed agreement with KYLE is three years, effective from September 1, 2022 to August 31, 2025. The maximum compensation under the proposed agreement is \$1,007,880 as summarized below.

Description	Amount
Well 5-02	\$148,845
Well 16-02	\$148,845
Well 21	\$175,069
Well 26	\$148,845
Well 34	\$175,070
Well 32	\$211,206
Maximum Compensation	\$1,007,880

Due to the age and type of construction, the wells have historically exhibited water quality, production and sanding issues. Under the proposed agreement, KYLE will perform an initial condition assessment and provide recommendations on whether the wells can be successfully rehabilitated to mitigate the primary issues of concern. If the City proceeds with rehabilitating the wells, KYLE will also assist staff with preparing technical specifications and provide engineering support services during construction.

Rehabilitation of these wells will provide the critical redundancy to the City's water supply, thereby reducing the City's dependence on purchased treated water supply and ensuring the residents and businesses in Santa Clara continue to have a reliable supply of water.

ENVIRONMENTAL REVIEW

The action being considered is exempt from formal environmental review under the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15301(b) (Class 1 - "Existing Facilities") as the activity consists of the operation, repair, and maintenance of existing public structures, facilities, and mechanical equipment, including publicly owned utilities, involving negligible or no expansion of the existing use.

FISCAL IMPACT

The Department's capital improvement program includes funding in the New and Replacement Wells project, which would be used for this agreement.

COORDINATION

This report has been coordinated with the Finance Department and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board

outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220 or via email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Authorize the City Manager to execute an agreement with KYLE Groundwater, Inc. for well condition assessment and engineering services during rehabilitation starting on or around September 1, 2022 and ending on or around August 31, 2025, with maximum compensation not-to-exceed \$1,007,880, subject to the appropriation of funds.

EXHIBIT D
LABOR COMPLIANCE ADDENDUM

This Agreement is subject to the requirements of California Labor Code section 1720 et seq. requiring the payment of prevailing wages, the training of apprentices, and compliance with other applicable requirements.

A. Prevailing Wage Requirements

1. Contractor shall be obligated to pay not less than the General Prevailing Wage Rate, which can be found at www.dir.ca.gov and are on file with the City Clerk's office, which shall be available to any interested party upon request. Contractor is also required to have a copy of the applicable wage determination posted and/or available at each job site.
2. Specifically, contractors are reminded of the need for compliance with Labor Code Section 1774-1775 (the payment of prevailing wages and documentation of such), Section 1776 (the keeping and submission of accurate certified payrolls) and 1777.5 in the employment of apprentices on public works projects. Further, overtime must be paid for work in excess of 8 hours per day or 40 hours per week pursuant to Labor Code Section 1811-1813.
3. Special prevailing wage rates generally apply to work performed on weekends, holidays and for certain shift work. Depending on the location of the project and the amount of travel incurred by workers on the project, certain travel and subsistence payments may also be required. Contractors and subcontractors are on notice that information about such special rates, holidays, premium pay, shift work and travel and subsistence requirements can be found at www.dir.ca.gov.
4. Only bona fide apprentices actively enrolled in a California Division of Apprenticeship Standards approved program may be employed on the project as an apprentice and receive the applicable apprenticeship prevailing wage rates. Apprentices who are not properly supervised and employed in the appropriate ratio shall be paid the full journeyman wages for the classification of work performed.
5. As a condition to receiving progress payments, final payment and payment of retention on any and all projects on which the payment of prevailing wages is required, Contractor agrees to present to City, along with its request for payment, all applicable and necessary certified payrolls (for itself and all applicable subcontractors) for the time period covering such payment request. The term "certified payroll" shall include all required documentation to comply with the mandates set forth in Labor Code Section 1720 et seq, as well as any additional documentation requested by the City or its designee including, but not limited to: certified

payroll, fringe benefit statements and backup documentation such as monthly benefit statements, employee timecards, copies of wage statements and cancelled checks, proof of training contributions (CAC2 if applicable), and apprenticeship forms such as DAS-140 and DAS-142.

6. In addition to submitting the certified payrolls and related documentation to City, Contractor and all subcontractors shall be required to submit certified payroll and related documents electronically to the California Department of Industrial Relations. Failure to submit payrolls to the DIR when mandated by the project parameters shall also result in the withholding of progress, retention and/or final payment.
7. No contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].
8. No contractor or subcontractor may be awarded a contract for public work on a public works project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. Contractors MUST be a registered "public works contractor" with the DIR AT THE TIME OF BID. Where the prime contract is less than \$15,000 for maintenance work or less than \$25,000 for construction alternation, demolition or repair work, registration is not required.
9. All contractors/subcontractors and related construction services subject to prevailing wage, including but not limited to: trucking, surveying and inspection work must be registered with the Department of Industrial Relations as a "public works contractor". Those you fail to register and maintain their status as a public works contractor shall not be permitted to perform work on the project.
10. Should any contractor or subcontractors not be a registered public works contractor and perform work on the project, Contractor agrees to fully indemnify the City for any fines assessed by the California Department of Industrial Relations against the City for such violation, including all staff costs and attorney's fee relating to such fine.
11. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

B. Audit Rights

All records or documents required to be kept pursuant to this Agreement to verify compliance with this Addendum shall be made available for audit at no cost to City, at any time during regular business hours, upon written request by the City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of such records or documents shall be provided to City for audit at City Hall when it is

practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records or documents shall be made available at Contractor's address indicated for receipt of notices in this Agreement.

C. Enforcement

1. City shall withhold any portion of a payment; including the entire payment amount, until certified payroll forms and related documentation are properly submitted, reviewed and found to be in full compliance. In the event that certified payroll forms do not comply with the requirements of Labor Code Section 1720 et seq., City may continue to hold sufficient funds to cover estimated wages and penalties under the Agreement.
2. Based on State funding sources, this project may be subject to special labor compliance requirements of Proposition 84.
3. The City is not obligated to make any payment due to Contractor until Contractor has performed all of its obligations under these provisions. This provision means that City can withhold all or part of a payment to Contractor until all required documentation is submitted. Any payment by the City despite Contractor's failure to fully perform its obligations under these provisions shall not be deemed to be a waiver of any other term or condition contained in this Agreement or a waiver of the right to withhold payment for any subsequent breach of this Addendum.

City or the California Department of Industrial Relations may impose penalties upon contractors and subcontractors for failure to comply with prevailing wage requirements. These penalties are up to \$200 per day per worker for each wage violation identified; \$100 per day per worker for failure to provide the required paperwork and documentation requested within a 10-day window; and \$25 per day per worker for any overtime violation.
